

# Laparoscopic Operating Techniques in Urology Workshop Program 2020

Medical Faculty of the Martin-Luther-University  
Halle-Wittenberg  
[www.medizin.uni-halle.de/kur/](http://www.medizin.uni-halle.de/kur/)

31 points

Department of Urology and Kidney Transplantation Centre  
Head of Department: P. Fornara, M.D., Professor and Chair

Dear Colleagues,

We would be very pleased to welcome you to one of our upcoming laparoscopic workshops.

We offer beginners in laparoscopy the opportunity to achieve specific technical experience through active participation in laparoscopic operations by working with a pelvitrainer and with large animal models (pigs) under the direction of experienced trainers. Simultaneously, we wish to demonstrate details of complex laparoscopic operations (such as laparoscopic living donor nephrectomy, radical tumor nephrectomy, adrenalectomy, radical prostatectomy) for advanced laparoscopically active urologists.

We hope that our course offer will meet the expectations of our guests, regardless of whether they are beginners in laparoscopy or more experienced colleagues and we look forward to your visit.

If there are less than the minimum of 4 participants registered, unfortunately we might be forced to change the course to another date. We will then inform you accordingly in due course.

This continuing education and further training program will receive 31 CME points from the Academy of German Urologists through the medical association Sachsen-Anhalt.

Yours sincerely,  
Paolo Fornara

# Program: Day 1

07:45 – 08:00

## Welcome of participants

Presentation of the operation and training program

08:00 – 15:00  
(11:00 – 11:30: Break)

## Active assistance in selected urological laparoscopic procedures (simultaneously in 2 ORs)

### Interactive Discussion

- Propaedeutic aspects – instruments, patient and port positioning, intra- and extraperitoneal approach
- Anaesthesiological management of laparoscopic operations in urology
- Urological laparoscopic ablative techniques in benign and malignant diseases (with video clip demonstrations)

15:00 – 15:30

## Break

approx. 15:30

## Departure to the research and training centre “Medizin im Grünen”

c/o HCx Consulting GmbH

Ulmenstr. 12

15864 Wendisch Rietz
